

# JOHAN GALEANO

---

## Web Developer

**Country:** Colombia

**City:** Bogotá

**Address:** Dg. 48 j Sur #1-96

**Cel:** 3133479170

**Email:** jcgs222@hotmail.com

**Portfolio:**

<https://jcgaleano1.github.io/portfolio/>

## DESCRIPTION

---

I am a person who is a quick learner, eager to learn every day. I consider myself a person capable to work in a team and get along easily with other people. I'm also creative and dynamic. I'm fascinated by the frontend part, although the backend part is really important I know little bit.

## STUDIES

---

- Technician in Software Programming at Sena
- Programming course in Html, css and Javascript basics at Bictia.
- Programing course in MySql, Python and Java basics at MinTic Colombia.
- Currently studying Technology in analysis and development of information systems.
- Course of French B2 at Canadian College and English B2 at Smart.

## EXPERIENCE

---

I worked for Thomas Green during 6 moths making user manuals in detail, describing every funtionality of the aplications , I had to verify and test them looking for errors or bugs, also making informs and reviewing requirements. At this moment I don't have real eperience, but I'd like to work in coding, take this challenge to increase my skills and gain real experience.
